

MQCON SVMC Controller Led Blink Description

LED Blink times	Information
1	hardware overcurrent
2	over voltage
3	lack voltage
4	reserve
5	motor over-temperature
6	controller over-temperature
8	over current
9	over load
11	store error
12	hall test error
13	hall error
14	reserve
18	over speed
20	motor block
21	read data from eeprom error
25	lack voltage when power on
26	brake
27	anti-theft
28	reverse
29	reverse
30	throttle voltage too high when power on
